Very low usage, indicating minimal demand.

OVERALL

MIA students primarily utilize Book A Seat, indicating reliance on study spaces, with the highest usage observed in the AMT program, followed by AEE. Roving Reference also shows moderate usage, particularly in AEE, suggesting some need for assistance services. However, most other services including borrowing, consultation, and digital tools remain underutilized, while AM shows no engagement across all services. Overall, there is a need to improve awareness and promote broader use of library services beyond study spaces.
