# **FIRST TERM 2023 - 2024 TOP STUDENT BORROWER**

Being a top borrower of books from CLIR has been a valuable part of my experience this semester, especially in my accounting program. I am really grateful for the extensive resources provided by CLIR, as it contributed a vital part in enhancing my understanding of complex accounting principles, expanding my knowledge, and enabling me to pass my accounting courses.

# **FIRST TERM 2023 - 2024 TOP FACULTY BORROWER**

I would like to extend my appreciation of being part of this acknowledgement. As an instructor, you should have plenty of resources in order to deliver your discussions towards your students.

Our school library never fails to support the resources I need during the first term A.Y 2023-2024. In addition, their excellent service and accommodations will always be their top priorities for students and teachers.

“ Reading is not just reading. It takes us to places far more different than where we usually are. It brings us emotions we never thought we would feel. It teaches us lessons we couldn't grasp so easily in life. It gives us more insights than what our eyes could meet. It gives us life - in mind and spirit, for reading feeds not just the brain but also the soul. Reading is limitless. It is not bound in words so deep we decipher them like codes. It is deep - with thousands of thoughts and ideals and morals and places and people all in one eternal compilation of written works. For reading is not merely reading. It is a gift. And we are grateful. ”

**James Robert C. Balbieran**
